

Weekly Albuquerque Citizen

VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY OCTOBER 31, 1903.

NUMBER 110

Territorial Topics

AZTEC.

from the index. School opened at Flora Vista with a Henry teacher. A masquerade ball will be given at the hall on Thanksgiving night, Tuesday, October 26. Hundreds of loads of apples are now being hauled into Durango from this county, and again San Juan has an opportunity of proving itself the greatest apple-producing section in the world. The territorial board of health are seriously enforcing the new health and vaccination laws, and have compelled Dr. Condit as county health officer for San Juan county, to carry out the provisions of those laws. A severe form of scarlet fever has broken out at La Posta, the Mexican station on the road to Durango, and on Saturday three of the children of Mr. Gibson died, while two more are expected to die, at last report. Dr. Condit was called on Saturday to the San Juan to attend Ricardo Archuleta, who was kicked by a horse, and received three broken ribs and injuries internally. At last report he was resting well and hopes are entertained for his recovery.

LORDSBURG.

from the Liberal. Mrs. J. A. Gutierrez, who has been in El Paso for some time, has returned to Lordsburg. Mrs. A. Velch was down from Cliff to meet her friends, Miss Crawford, from California. W. Q. Hardin left with a carload of eggs for Louisiana, where he expects to sell them at a good profit. Mrs. W. H. Pratt, who has been visiting her daughter, Mrs. E. W. App, has gone to Douglas to visit her daughter, Mrs. J. A. Lewandowski. T. A. Lister, accompanied by his wife and two children, came in from Albuquerque Sunday, where they had been visiting the fair. This is Mrs. Lister's first visit to the west. She is enjoying her visit so much that she expects to remain all winter.

ALAMOGORDO.

from the Journal. J. F. Milner, a La Luz orchardist, has a peach tree on which the fruit is a very late variety. Mr. Milner thinks the peaches will not ripen until December and that he will be able to have fresh peaches from it as late as Christmas, possibly until March. The man with a pistol was up against it in the police court Tuesday morning. A fine of \$50 and costs was assessed and the man with a gun paid her up like a man. One dose of Dr. Slaughter's prescription seemed to effectually cure him; for he said, that as soon as he got out of sight he would throw the gun away, and never be guilty of the offense again. Mr. and Mrs. N. J. Herbert, parents of Mrs. W. K. Shelton, came in from Hopkins, Missouri. They received a telegram announcing the death of Mr. Shelton, and started immediately for Alamogordo, but the train was delayed and they did not arrive in time for the funeral obsequies. Mr. and Mrs. Herbert are well pleased with the country, and are thinking of purchasing a farm in the mountains and to retiring.

COURT CLEANING UP

Civil Docket Very Rapidly by Dismissals, Continuance or Decisions.

ALDRICH AGAIN LOSES HIS SUIT

In the suit of John M. Aldrich and wife against the Atchison, Topeka & Santa Fe Railroad Company for damages in the sum of \$5,000, on account of the construction of the Coal Avenue viaduct in the street in front of the premises on East Coal Avenue, the court yesterday instructed the jury to return a verdict in favor of the defendants, for the reason that the facts presented by the plaintiffs showed that the viaduct was the property of the city, and constructed upon the city's streets, the railroad company being merely employed by the city to construct the viaduct; and that therefore the railroad company was not liable. The court also ruled that the city was not liable for such damages as were caused, because it was not alleged that any of the plaintiff's property was taken by the city, and that there being no statute in New Mexico authorizing the recovery of such damages as alleged the city could not be made to respond so long as they had built the viaduct in a reasonable place and in good and workmanlike manner. Felix Lester represented the plaintiff, J. H. Stingle the city and Col. R. E. Twitchell the railroad company. Col. Twitchell is one of the most aggressive and successful lawyers in New Mexico, and has represented the Santa Fe railroad company for over twenty-one years. He enjoys

the unique distinction of never having lost a case for that company. Col. Twitchell gets there. A large number of civil cases were set for trial by jury, but went off the docket rapidly by either dismissal or waiving juries, as they were called on the trial calendar.

The case of H. E. Fox against the Western Union Telegraph company for damages, caused by delay in delivery of message, was dismissed by plaintiffs.

The case of Jacobo Chaves against Gross, Blackwell & Co., was continued by agreement until the next term of court. The case of Eugenio Yrisarri against S. Vann & Son, suit on promissory note for \$136 made by Vann & Son, to one John Russell, who endorsed the note to plaintiff prior to maturity thereof, was tried by jury and on motion of the plaintiff, after the evidence was in, the court instructed the jury to return a verdict in favor of plaintiff for amount sued for with interest. McMillan & Reynolds represented plaintiff and E. L. Medler the defendants.

HILLSBORO.

from the Advocate. J. C. Plemmons left recently for Hermosa. T. J. Fender recently killed a rattlesnake that had thirteen rattles and a button. T. C. Long has gone to California to be absent for a few weeks on business and pleasure.

Lon Johnson has sold his herd of cattle to Pete March. Lon will soon move his family to Douglas, Arizona. Mrs. George T. Miller left for Las Cruces to attend the wedding of their niece, Miss Georgie, daughter of Mr. and Mrs. Nicholas Gales, which occurred next Wednesday.

H. A. Rinzer returned last week from Missouri. He left again early this week to look after his wife, which he has just completed boring on the plains twenty-five miles east of Rincon.

HELL CANYON GOLD.

Nuestra Senorita del los Milagros Property is Being Developed.

NEW YORK CAPITAL INTERESTED

There is an excellent prospect that active mining operations will begin in the Hell canyon gold mining district in the near future and that the operations will be made in earnest and on an extensive scale.

Charles N. Nelson, Jr., representing capital to the amount of several million dollars, is in the city and yesterday visited the Hell canyon district accompanied by A. F. Wuenach, a prominent mining expert of Denver. Last spring Mr. Nelson was in New Mexico and spent several weeks prospecting the foot-hills in the neighborhood of Hell canyon and consulting with mine owners of this city. At that time Mr. Nelson put miners to work on the Nuestra Senorita del los Milagros property. This is one of the oldest known gold bearing properties in the Hell canyon district and was opened up about the year 1875. A hole has been sunk down on the property to the depth of 120 feet, but to what consequence is not known. Mr. Nelson is reticent about the matter and Mr. Wuenach refuses to be interviewed, but its safe to guess that something has been found in the hole on the Nuestra Senorita del los Milagros property that warrants further prospecting as the working force at the mine has been instructed to continue the development work. Mr. Nelson will leave this evening for New York and Mr. Wuenach will return to Denver.

SANTA FE.

From the New Mexican. The running team of the Santa Fe fire department will hold a dance at the opera house Saturday evening, November 7.

Isidoro Ferran of Coyote, Rio Arriba county, arrived from the north on a visit to a son and daughter, who are attending St. Michael's college and the Loretto academy respectively.

A. R. Manby of Taos, who is receiver of the Taos county bank and of the business of Juan Santistevan, arrived from Taos. He is attending to business connected with his duties as receiver. Emmett Wirt, Indian trader at Dulce, has been appointed administrator of the estate of the late A. P. F. Coape, who some three weeks ago committed suicide at that point. It is understood that the estate is quite valuable and that it contains many good skins of wild animals, such as bear, mountain lion, lynx, mountain wolves and others, also two stores, one at Lumberton and one at Largo and a saloon at Lumberton are included therein.

William Hill and daughter of Holstein, Iowa, are in town. Mr. Hill will

remain in New Mexico during the winter for the benefit of his health and will spend part of his time in this city and part in Albuquerque. He is in the grain and cattle business at home. He has recently recovered from a severe attack of pneumonia, and fears that the climate of Iowa is too rigorous, hence he came to the sunshine territory for the cold season. His recent illness was contracted while on a tour of California.

Exciting Horse Race.

A big horse race came off Monday near the Ojo Caliente hot springs, between the famous horse "El Pando" owned by A. A. Gallegos of Vallecito, New Mexico, and the celebrated race horse "Posey" owned by Fred Ortiz of Conejos, Colo. The distance was five hundred yards and the race was won by "Posey" by a full length. A great deal of money and live stock changed hands on the race. Another race will probably be run within a few days.

Judge Laughery, of the law firm of Laughery & Hancock, has been under the weather the past few days. He was up and around this morning, but still feeling a little sick.

DISTRICT COURT

Ben Meyer Loses Case, Which Was Based on Technicality.

CHARLES CLOYDE IS SUSTAINED

The court tried the case of F. H. Young vs. Ben Meyer, a suit on a judgment for \$700 rendered against the defendant in the state of California. The defense was directed to the certification of the judgment upon which the suit here was founded, and was technical in its character. The court overruled the objections of defendant to the evidence so presented, and the jury returned a verdict against defendant in the sum of \$900. R. W. D. Bryan represented the plaintiff and N. B. Field the defendant.

The court also tried the case of Booker M. Rose against Chas. Cloyde, in which plaintiff claimed \$40 on a rent account. The defendants claimed they contracted with the agent of plaintiff, Mr. Dunbar, and that he stipulated that in event they were compelled to move from the premises within an unreasonable time, he would knock off the last month's rent, and they claim that they were compelled to move out by reason of a sale of the property shortly after they moved in and in an unreasonable time, and refused to pay the last month's rent. The jury found verdict for the defendant.

The court had before it this afternoon the suit of Geo. K. Neher against Badaracco, Grazi and others, for title to the opera house which was built on Third street, but subsequently burned down.

SANTA RITA

From Silver City Independent.

Mrs. Ed Schayler and family returned home from a three weeks' visit to relatives in Douglas, Arizona.

Louis Legros, veteran confectioner, took a trip to Pinos Altos to get acquainted with his family.

Engene Warren and a party of friends drove into Santa Rita and dined with Mrs. Fox at the Santa Rita house.

F. J. Davidson, Dick Lee and Mr. Watson, formerly partners of Mr. Davidson, all of Pinos Altos, were visitors in camp.

Mrs. Dr. Provence, who taught on the Mimbres last year, is teaching in Santa Rita camp this year and is well liked by her pupils.

Horace Moses was in from Gold Gulch and reports great progress in their mine there. He started for El Paso with another shipment of ore.

Rev. Mr. Templeton of Pinos Altos held services here last Sunday. Mrs. Thomas was appointed financial secretary of the Methodist society to succeed Mrs. Harwell who retires.

The Santa Rita boys, with the assistance of the dancing element of Pierra, Hanover and Lone Mountain, gave a very enjoyable hop last Saturday night. Good music and a good time.

G. W. Mullins, an engineer from the Diamond mine, Arizona, with his wife arrived here a few days since and went to work immediately for the company. Mrs. Mullins was formerly a trained nurse in a Philadelphia hospital.

Dr. S. M. Strong has just returned from a professional visit to the N. A. N. ranch and it is rumored among the cow boys that "Uncle" Sin Holstein is looking younger, stepping a little higher and appearing altogether more dignified since little Miss Holstein arrived. Mother and child are doing nicely.

The road supervisor wishes to call the attention of the county commissioners and the district attorney to a bad hole in the road near San Jose, which is a public nuisance and has been in the past year. This can be remedied only by the Santa Fe railroad putting a culvert through their grade under the track at that point. He intends bringing this matter before the district court this term.

THIRTY-THIRD DEGREE MASON

C. T. Brown, of Socorro, Selected for High Honor by Supreme Council.

INFORMATION RECEIVED YESTERDAY

Information was received yesterday morning by Colonel Max Frost, of Santa Fe, thirty-third degree inspector general and deputy of the supreme council of the Ancients, and Accepted Scottish Rite of Free Masonry for southern jurisdiction of the United States, that at the biennial session of the supreme council, which met in the city of Washington last week, C. T. Brown, the well known mining engineer and mine owner of Socorro, was elected to the thirty-third degree, and honorary inspector general for New Mexico. Upon his receiving this, the highest and last degree of the Ancient and Accepted Scottish Rite of Free Masonry, New Mexico will have two thirty-third degree Masons, namely: Colonel Frost and Mr. Brown.

Mr. Brown has been a resident of Socorro since 1890. He is a mining expert and engineer and has been actively and successfully engaged in mining for a number of years.

At present he and Capt. A. B. Fitch of Kelly are the lessees of and are working the Graphic group of mines in the Kelly district. Mr. Brown is a native of Penobscot county, Maine. He is in the prime of life, an exemplary citizen, a good and kind husband and father, and a man of the highest probity, much business ability, great energy and enjoys a most enviable reputation wherever known. In the York Rite of Free Masonry, he is a member of the lodge, chapter, council and commandery.

He received the degree of the Scottish Rite in April, 1898, was elected to the honorary degree of knight commander of the court of honor by the supreme council in April, 1901. During the last four years he has acted as deputy for Colonel Frost in communication of the Scottish Rite of Free Masonry in various sections of the territory.

Mr. Brown stands very high in Masonic circles and is a hard worker-laborer in the cause and propagation of the Scottish Rite of Free Masonry. For the past five years, he has been a member of the board of regents of the New Mexico School of Mines at Socorro and has served as secretary of the board. He has proved himself most efficient in his official position and deserves great credit for the unselfish and hard work he has performed for the upbuilding, advancement and prosperity of that institution, giving his services and time without compensation and without charge. The one hundred Scottish Rite Free Masons in the territory will be gratified to know that this distinction and honor has been given to so worthy and successful a laborer in the cause of Masonry as Mr. Brown has proved himself since he received his degree in the blue lodge eighteen years ago.

FORESTRY EXHIBIT

Several Governments Will Have Competitive Exhibits at World's Fair.

FORESTERS INTERESTED

St. Louis, Mo., Oct. 29.—The German Empire and the United States government are to have competitive exhibits in forestry at the world's fair. Which nation's methods of forest management are better and more practical is the problem to be solved. Two tracts of land, already partially covered with trees, and each about five acres in extent, have been assigned to the United States and German governments as the laboratory for their tests. The two lie side by side, so that the visitors may walk through what the Americans call an "arborescence" and observe all American methods of forestry, and then step across into what the German designate as a "forest garden," and learn the German method.

No trees will be cut from either tract. Rather transplanting will be resorted to, and when the exposition opens miniature forests, perfect in every detail, with narrow gravel walks winding in and out, may be seen. Every tree that thrives in the latitude of St. Louis will be represented and the specimen can be easily designated. Attached to each tree will be an aluminum label on which will be stamped the botanical and common names.

In one respect the exhibits will be the same. Each display will embrace practically the same number of trees and they will be practically of the same varieties. Here are similarity cases. The treatment will accord with the practices in vogue in the respective countries. In the American arboretum the trees will be planted, trained and pruned according to the American idea. In the German forest garden will be reproduced, in miniature the effects that obtain in the forests of the fatherland, and the story of how the wonderful forests of Germany have been preserved

through ages, and renewed from time to time, will be told by practical demonstrations.

The exhibits will be in charge of the most expert foresters to be found in the two countries. Practical demonstrations and tests will be made every day during the exposition. Trees will be transplanted and the most approved apparatus for this work will be shown in actual operation. Trees will be pruned and trained, and all of the implements used will be a part of the exhibit. Trees will be inoculated with disease, and when the disease is fully developed, the most approved treatment will be accorded the affected trees. Careful data will be kept on all such experiments, and the results will be made known, together with a full description of the treatment, in order that the preservation of the forests may be accomplished.

Mr. Maynard Gunsul has resigned his position with the Gas & Electric company to take effect November 1. Mr. C. B. Allen from Colorado, will succeed Mr. Gunsul, who will devote his time to other public utilities in which he is interested.

STILL AT LARGE

The Would Be Murderer, Severino Lucero, Has Eluded Capture.

WOMAN ALL RIGHT

The officers, who were out yesterday afternoon and last night, have returned to the city, but they did not bring back with them Severino Lucero, who attempted to murder his divorced wife on West Railroad avenue yesterday morning.

Deputy Sheriff Newcomer and with heard of the fellow passing through fields in the vicinity of the government Indian school, but, after a thorough search of that vicinity, failed to locate Lucero.

Sheriff Otero of Sandoval county, as stated yesterday afternoon in The Citizen, has posted his deputies at Alameda, Los Corrales and Bernalillo to be on their guard and intercept Lucero if possible, in his flight from arrest. Sheriff Otero stated that he has received no news from his deputies, and he fears that Lucero, after getting out of the city limits, made tracks toward the Rio Grande, which he crossed, and thence will move on to Arizona.

"The pursuit will be continued," says Chief Deputy Newcomer, "and we hope to have Lucero in the county jail in a few days."

Dr. Pearce is attending the wounded woman. He reports her resting nicely, and says she will be all right in a short time. The wound will cause the woman no inconvenience whatever, as the bullet, after entering the flesh, only traveled underneath the skin and came out on the back.

"It seems remarkable," says the doctor, "that the bullet failed to penetrate further into the body."

GOLDEN GLEANINGS

Argo Mining Company Will Resume Work on Their Mines.

Special Correspondence.

Golden, N. M., Oct. 28.—L. D. Sugar, manager of the Argo Mining company, of Milwaukee, Wis., arrived at Golden yesterday and work on the Hazelton will begin next week. The Argo Mining company has been sinking a shaft on the Hazelton mine for the last three years and the shaft is now 490 feet deep. At the 478 foot level, (178 feet) a vein of gold ore was found carrying some free gold, but the main body which is three feet wide is very refractory, and a special plant will be needed to treat the ore and save all the values.

Mr. Sugar is not satisfied with a three foot vein of gold ore and he comes prepared to sink the shaft much deeper before he can recommend his company to put up a plant. Mr. Sugar believes in having the ore in sight before buying a mill.

The present development will be of great help to the district as the Argo company is the only corporation who ever believed that this district needs deep mining. The present shaft has cost the company a good fortune, but they are not discouraged yet and will go deeper at any expense. For several weeks the company's expenses for sinking the shaft at the Hazelton was as high as \$70 per foot, the last sixty feet was sunk by contract at the expense of \$25 per foot, but the hard formation which they had to contend with is past and the bottom of the shaft is now in porphyry, can be worked much cheaper and by the present indications it looks as if the Argo company will have a great mine in a short time.

Night before last Mr. and Mrs. Aaron Rosenwald returned from Waukegan, Wis., where they had been the past six weeks. Last night Mr. Rosenwald, accompanied by his son, David Rosenwald, and the children of Edward Rosenwald, Misses Alma, Regina and Master David Rosenwald, left for Los Angeles. Mr. and Mrs. Edward Rosenwald are at Los Angeles, and he is reported in bad health.

Railroad Topics

C. H. Brown has accepted a position with the Southern Pacific company running their pump at Cambridge station for a while.

There are forty-one residents of Santa Fe employed in the stone quarries of Lantry & Sons at Watrous. They are getting out stone and roadbed material for the Santa Fe railway.

H. Isaacs, division baggage agent for the Santa Fe coast lines, with headquarters at Los Angeles, was in the city this morning, but accompanied General Baggage Agent Walsh east.

Frank Wilson, brakeman, who lost an arm, not long since at Thornton, it having been literally torn out from the socket, left the local hospital yesterday for Topeka, where he will undergo final examination, before being discharged as cured.

Patrick Walsh, general baggage agent for the Santa Fe system, came in from the east last night and left in return this morning. Mr. Walsh, who has been with the Santa Fe many years, is regarded as one of the very best baggage agents in the entire country.

The Mexican Central earnings for the third week in October amounted to \$469,312, same period in previous year, \$456,960; increase (2.6 per cent), \$12,352. Three weeks, October, \$1,506,475; same period in previous year, \$1,277,911; increase (17.89 per cent), \$228,564.

A brakeman by the name of Morse fell from the top of a "chose" while the train was moving out of the Kingman yards the other morning, and was severely shaken up, although no bones were broken. He was unconscious for some time and it was feared that he had broken his neck.

W. F. Burrows, superintendent of the Atchison union depot for the past twenty-two years, has resigned, and will return to his former home at Assonet, Mass. Mr. Burrows has been in the west forty years, and was a conductor on the Hannibal and St. Joseph out of Hannibal during the war.

OFFICIAL MATTERS

Notaries Public-Territorial Funds-Articles of Incorporation.

NEW FOREST RANGER

Governor Otero has appointed the following notaries public: Thomas K. Madison, Albuquerque; Bernalillo county, \$18.03, taxes for 1902. From E. W. Hulbert, treasurer and ex-officio collector of Lincoln county, \$93.38, taxes for 1902.

Territorial Funds Received.

Territorial Treasurer J. H. Vaughn has received the following public funds: From Romualdo Roybal, treasurer and ex-officio collector of Mora county, \$18.03, taxes for 1902. From E. W. Hulbert, treasurer and ex-officio collector of Lincoln county, \$93.38, taxes for 1902.

Articles of Incorporation.

The following articles of incorporation have been filed in the office of Territorial Secretary J. W. Reynolds: The Gold Coin Mining & Milling company, principal offices at Hillsboro, Sierra county. The incorporators are John Winspear and William Schaudorf of Cincinnati, and William Robinson of Hillsboro, N. M. The company is incorporated for fifty years and is authorized to mine and mill gold, silver, copper, lead, zinc and other metals, to run tunnels, sink shafts, build tramways, mills and smelters, and to do all things necessary to carry out the purposes of the corporation. The capital stock is \$1,000,000 divided into 1,000,000 shares of the par value of \$1 each. The first board of directors consists of the incorporators.

Temporary Appointment as Forest Ranger.

Forest Ranger R. J. Ewing of the Pecos forest reserve, is doing some special duty which will require his presence in Santa Fe for some weeks. In order to fill Ranger Ewing's place on the forest reserve and especially to guard against fires, as the season is very dry, Mr. Ewing Tuesday appointed George W. Armijo as temporary forest ranger in his stead, and to perform the duties of ranger on the reserve. Mr. Armijo was sworn in and left yesterday morning for the reserve. Mr. Ewing was authorized by the secretary of the interior to select some one for the position and named the new appointee.

Making the Track Dustless.—In Arizona, over 200 miles of track are now oiled. The original expense of this oiling has been about \$85 per mile, but the second year it is claimed the expense will be but half as much. It is planned to oil all the sandy and dusty track through California, Arizona and New Mexico, and also to oil the grounds about the stations where there is so much travel as to make disagreeable dust. This

oil of station grounds at various points upon the coast line has proved most satisfactory.

The Dead Wood Touched.

An Emporia brakeman made a foolish bet with a still more foolish means of proof. The brakeman in question made a wager with several of his pals that the dead wood on the cars would not touch by at least two inches, and as proof offered to place his fingers between the dead wood, with the result that he is in the hospital with an amputated finger, much more the wiser as regards the construction of cars. However, nothing serious is to be looked for and he will be out again in a few days ready for work.

CONNECT AT DEMING

Work on Santa Fe Line in Arizona Is Progressing.

Following the announcement that the Santa Fe will shorten transcontinental time a whole day by building a 250 mile cut-off, comes the statement that more cut-offs on the system in southwestern territory are being planned.

Surveys have been completed for an extension of the Santa Fe, Prescott & Phoenix which if built will form a part of the low grade of the transcontinental line. The Phoenix & Eastern which will connect with the Santa Fe at Deming, is being pushed forward, and the Crown Creek extension has been completed for a distance of sixteen miles. It extends from Mayer, Ariz., into the Crown King mining district.

Late Tuesday afternoon the suit of J. J. Williams vs. the Galveston, Harrisburg & San Antonio Railway company, tried in El Paso, was given to the jury. After being out a short time the jury announced that it was ready to report, and awarded the plaintiff a verdict in the sum of \$1,500. A motion for a new trial has been already made. Williams sued for \$10,000 on account of personal injuries sustained in a collision in which it is alleged that the petitioner was seriously and permanently injured.

Railway Accidents.

Twenty-six derailments, twenty-four collisions and one locomotive boiler explosion make up the list of accidents in September on the railroads of this country, as given in the railroad Gazette. In seven of these accidents twenty-one persons lost their lives and fifty-five were hurt. The number of passengers killed in September was not above the average. One derailment was caused by a cow. In one of the September collisions a runaway powder car, running wild on the main track, banged into a freight train and exploded; two trainmen killed, two hurt. The electric railroads had twenty-one accidents in September, killing seventeen persons and damaging 145.

Work on Santa Fe Telegraph Lines. The rebuilding of the railroad telegraph lines in this section is completed and the linemen engaged in the work moved near Los Angeles, says the San Bernardino Times-Index. Besides putting up new wires, the route has been changed, shortening the distance somewhat and additional wires have been strung, giving the company several independent wires between Los Angeles and Topeka.

OFFICIAL MATTERS

Matron Appointed—Notaries Appointed—Territorial Funds.

SUPERVISOR HANNA SUSPENDED

Notaries Public Appointed.

Governor M. A. Otero has appointed the following notaries public: Julian Ortiz, Nambé, Santa Fe county; Emmett Patton, Roswell, Chaves county.

Postmasters' Commissions.

The following commissions of New Mexico fourth class postmasters have been issued: Hot Springs, San Miguel county, Mary S. Wirtz; Clow, Colfax county, Pedro Padilla.

Territorial Funds Received.

Territorial Treasurer J. H. Vaughn has received the following public funds: From H. O. Burnam, superintendent of the territorial penitentiary, convict's earnings, \$352.50.

Suspension of I. B. Hanna.

News from Washington is to the effect that I. B. Hanna, superintendent of forest reserves in New Mexico and Arizona has been suspended from duty upon charges of official irregularities, one of them being that he has allowed cattle owned by his son to graze upon the Pecos forest reserve without official permit. It is understood that Mr. Hanna is now engaged in making a reply to these charges. H. A. Charlton, inspector of forest reserves, has been making investigation of the charges and has been in the territory about two weeks upon his duty.
